Dear Ms. Hinton,

We are forwarding to you the letter we sent to the Honourable Minister Jean Augustine on May 28/04.

We note in your biography a statement about "wanting to get involved in solving the issue of "slavery" that still darkens the doors of many countries, including Canada she discovered." The persons who have included statements in our letter have been involved in modern day slavery. We hope you extend concern to their plight.

with regards,
